The Jersey [Economic Development Plan 2007](#) is published by the Minister for Economic Development. It says on page 12 that the values underpinning the plan include:

We will always be fair and honest and act with integrity

That's a barefaced lie. You can't be fair, honest and act with integrity and promote the laws that Jersey does. Just look at the [discussion](#) on their [law enabling the operation of sham trusts](#) on this site and the impossibility of this claim is apparent.

Integrity passed these people by.
