These are my links for February 8th:

- * [Turn failed banks back into mutuals, Labour told |](#) - Glad to see another idea suggested on this site is reaching the mainstream
- * [Offshore Asset Protection BLOG - Bob Bauman: Jamaica Offshore Financial Center?](#) - PWC still promoting the offshore world - and all the secrecy and tax evasion that goes with it and which has left us in the mess we're in
Why don't we just ban them from all government contracts for their abusive behaviour?
