

New German book on secrecy jurisdictions

Published: January 13, 2026, 12:55 pm

Attac Germany has [published a new book on tax havens](#).

The main theme is of photographs of tax havens — showing that these are not sunny, palm lined places but in many cases offices in Europe with a lot of letterboxes.

Also featuring text by a range of those who know most about this issue — and me.

Recommended — if you read German.
