

## Jersey offers excuses

The Jersey Evening |Post ran an extensive article on the Financial Secrecy Index yesterday, but it is not available on line. Odd hat all praise for Jersey is, and all criticism is not. No wonder we say the place is opaque.

And what's their excuse for coming 11th? That we used 'out of date data'.

Nonsense. We benchmarked everyone at 31.12.08. So the comparison was fair to all.

This is really very lame excuse making when the truth is Jersey has a [very long way to go to create transparency](#).
