

The One Show - the Forestry Commission - and me

Published: January 13, 2026, 2:33 pm

Whilst I was talking in Jersey on Monday evening [I was also on The One Show on BBC1](#) - talking about the sale of the Forestry Commission.

No I was not in two places at once - the recording for the One Show was made last Friday.

This is a campaign everyone should support - these forests are a national asset - being sold for exploitation. We must stop it. My contribution was brief (2 hours filming for 15 seconds on air) but I'm pleased to have played a part.
