

Cuts are not the Cure

[Cuts are not the Cure](#) is a new pamphlet from the TUC.

I can warmly recommend it

And although I do advise the TUC this is not my work - so the recommendation is without bias.

And at the same time can I remind all reading this of the TUC cuts protest rally in London 26 March? It's incredibly important that as many people as possible get there. People have to deliver a decisive message that we've had enough of the lies delivered by Cameron, Osborne and Clegg.
