

## Careful what you wish for

---

There's a [lovely article in the Economist](#) under the above title.

It's all about bankers who have moved to Geneva and now want to come back to London - because it's the only place to be.

And for those who have never been to Geneva - I assure you, it is probably the most boring police on earth.

And that's why banks won't be leaving the UK. Because people won't go.

Hat Tip: Clifford Singer
