I'm delighted that Mark Morris has made available to me for the purposes of publication [his stunning guide](#) to the proposed amendments to the European Union Savings Tax Directive.

The image shows the cover of a guide titled 'The EU Savings Tax Directive Amendments'. The cover has a black and yellow design. The title is in large, bold, yellow letters. Below the title, there is a green speech bubble containing the text 'A practical Guideline'. To the left of the speech bubble is a cartoon illustration of a man with dark hair, wearing a suit and tie, pointing towards the text. The overall design is professional and informative.

THE
EU SAVINGS TAX
DIRECTIVE
AMENDMENTS

A
*practical
Guideline*

This guideline endeavours to illustrate the key extensions of the revised EU Savings Tax Directive with practical examples of what will be in or out of scope.

I make no pretence that this is an easy read: it isn't. But I've known Mark for some time now and know that he is widely recognised in the EU as an expert on these issues and I believe that what he's written is both invaluable information and a stunning guide for those with concern on this issue.

It also shows just how important these changes will be in tackling tax evasion - and not just in the EU. This has much wider impact. Unless you're a tax evader you'll be in the group who are bound to be better off when this is in place.
