Funding the Future

Why current NHS reforms will fail

Published: January 13, 2026, 12:55 am

This map - from Spinwatch - shows why current NHS reforms will fail.

They're all about private interests, not the NATIONAL Health Service:

Note who's in there:

McKinsey, KPMG, The King's Fund (yes, I do see them as biased on this issue as the Institute for Fiscal Studies are on tax), Pfizer, Capita, United Helath. Oh the list goes on.

How to capture state revenues for private gain.

This is all about the enclosure of the NHS for the benefit of the few at cost to the many.
