

Apologies

Published: January 14, 2026, 9:44 am

I've had big BT problems today.

I meant to say IT problems, but actually typed BT quite correctly probably.

The result is some blogs get published in draft form, unintentionally, and then I was offline for some time.

Now I'm on a mobile connection.

I hope something like normal service might function again sometime soon.

But I'll have to wait and see.
