

Funding the Future

Unite on 30 June

Published: January 13, 2026, 4:20 am

Governments throughout Europe continue to give tax handouts to bankers and big business while cutting back on public services for old people, sick people, children and those in need.

We have clear choices ahead of us: we need to resist the tax handouts without control being taken of the banks. We need to resist the tax haven economy. We need to support our welfare services. Most of all we need to protect democracy from the deep pockets of the banks, hedge funds, and other special interests.

UK Uncut has released a short and fun video calling for activists to take to the streets in support of industrial actions to protect vital public services on 30 June.

They're right to do so.

[Which is why I suggest you watch it here.](#)
