

## The Return of Fear - as a result of destroying the NHS

Published: January 13, 2026, 6:07 pm

---

Please watch the video with the above title [available here](#) this weekend

And realise just why we have to defeat the Health and Social Care Bill - even of it means relying on the House of Lords to do so.

As [Keep Our NHS Public](#) say:

*The Return of Fear - a film by Anne-Marie Sweeney produced for Health Emergency and Keep Our NHS Public.*

*Giving reasons to be fearful, the film, graphically shows how Lansley's proposals, despite amendments, will vandalise the NHS and lead to "A Return of Fear".*

*A fear removed by Aneurin Bevan when the NHS was founded.*

*Acclaimed thinker on health policy, Professor Allyson Pollack joins with other leading health campaigners to show why we must rage now against these coalition plans, to avoid despair later.*

*The film shows the deadly parallels with other privatisations, especially the privatisation of elderly care.*

*It celebrates the exuberant resistance from the real "big society" as it unites to prevent assault from market forces on our vulnerable and sick.*

*"The Return of Fear" is essential viewing, the core values of the NHS, markers of a civilised society, face a shocking attack.*

*Please urgently forward the link, download the film and show it at meetings or get a DVD. For further info email: [wakeupcallnhs@gmail.com](mailto:wakeupcallnhs@gmail.com)*
