

## The G20 on information exchange

Published: January 13, 2026, 5:41 am

---

[The G20 communique is weak.](#)

This is the best bit as far as I'm concerned:

*We underline the importance of comprehensive tax information exchange and encourage work in the Global Forum to define the means to improve it.*

But since they're asking the OECD to do this and they are not committed to automatic information exchange which is the only way in which such exchange can be comprehensive I have little hope.
