---

The [Fair Tax Mark](#) that I direct has attracted quite a lot of attention since it was launched a month ago.

Now, on its web site, the [Fair Tax Campaign is saying](#):

*We are now ready to take the Fair Tax Mark project into its next stage and are aiming to build on the impact of our retail sector pilot study by improving on our methodology and extending it to cover more sectors as well as medium-sized domestic UK companies.*

*In the spirit of openness and transparency, we would like to open up the debate and draw upon the wealth of expertise out there to make sure we achieve our goals. As such we are keen to know how you think we might develop the Fair Tax Mark methodology.*

The questions being asked are all on that sight. If you want your say, please do comment.
