---

The UK Gold, a new documentary on corporate tax avoidance, airs on London Live at 8pm Wednesday 25th March. Narrated by Dominic West, the film an original sound score by Thom Yorke (Radiohead), Robert Del Naja (Massive Attack) and Guy Garvey (Elbow). I also appear in it along with many familiar faces from the tax justice world.

I also had an article in the Independent yesterday marking the event. [That's available here.](#)
