If you think what I argue for on this site is worthwhile might I ask you to show your support for the [Tax Dodging Bill](#) campaign? This campaign has the backing of more than 20 NGOs, including the Tax Justice Network, Christian Aid, Oxfam, Action Aid, the Fair Tax Mark and others, and does support the call for country-by-country reporting, which has been one of my main campaigning themes for a long time.

You [can sign up here](#).

Thanks.
