

Technical support to Jeremy Corbyn

A little unexpectedly I have been invited to attend a speech Jeremy Corbyn is giving this morning and to then sit on a panel afterwards to answer questions on three issues. These are, I understand, the tax gap, tax justice issues including those relating to corporate transparency, and what Jeremy calls People's QE, and which I have previously called green infrastructure QE.

I must stress that I am not a member of the Labour Party and that I would also support other candidates if they wanted me to do so on issues where I had expertise to offer, but so far it seems as if it is only Jeremy who will be making the running on these issues. In that case I will be happy to answer the questions anyone attending wants to raise.
