In the August 2015 Taxcast: Sun, sea and tax: the Taxcast goes to Mexico and looks at how multinational tourism operates there. Plus: we ask why Luxembourg is printing euros like there's no tomorrow, whether the tax amnesty Brazil's offering its tax dodgers will work and we wonder how much longer 'emerging economies' and other countries left out of the reform of global tax rules will put up with it.

Featuring the Tax Justice Network's John Christensen and Linda Ambrosie author of the new book out this month: Sun and Sea Tourism: Fantasy and Finance of the All-Inclusive Industry www.tourismfantasyandfinance.org Produced and presented by @Naomi_Fowler for the Tax Justice Network.
