

## I said we'd have a crash in 2016

Published: January 13, 2026, 6:22 am

---

Last summer people seemed shocked when I very publicly said we'd have a crash in 2016 and would need People's Quantitative Easing. I remember Adam Boulton on Sky looking at me with something close to utter disbelief (or worse) when I said so.

Actually, I thought it would be later in the year if I'm honest.

And I take little satisfaction from being right.
