

Macro economics of the real world

Published: January 14, 2026, 5:15 pm

Tuesday is teaching day.

Today is macroeconomics of the real world.

In a nutshell: what do you want the government to do?

Big, or small?

Active, or passive?

And does it really have a choice when it comes to it in a modern economy?

All the rest is footnotes.

And the political wash in political economy.
