

Funding the Future

A summary of the 21st century economic problem in one t..

Published: January 13, 2026, 6:36 pm

I felt this one tweet very precisely summarised the 21st century economic problem, which has impact far beyond Japan:

So the answer is, increase wages and reduce cash piles.

Which means higher corporation taxes on large businesses should be on the international agenda, but they're not.

Why not?

The [linked article is here](#).
