

## The clean energy revolution

Published: January 13, 2026, 10:54 am

---

This video has just been published by Jeremy Leggett of Solar Century and the Green New Deal group. He has been at the forefront of renewable energy thinking for longer than I suspect he'd care to admit. It was made [at an investment forum he has been speaking at](#). The last three minutes may be the most telling - on what the executives of legacy energy companies should be doing now.
