

The latest guide to sustainable cost accounting

Published: January 13, 2026, 5:24 am

Sustainable cost accounting is the idea that I am promoting through the Corporate Accountability Network. The aim is to do what no one has yet achieved, which is to bring the impact of climate change onto corporate balance sheets. The latest guide to [sustainable cost accounting](#) is now out, incorporating feedback from recent meetings at which the issue has been discussed. You can download the guide [here](#).
