

Video of the Economics of Green Recovery

Published: January 13, 2026, 2:13 pm

This tweet features a video from the event I did on Monday night which I think is worth sharing. It may have been 6.35pm in the US when this began, but it was 11.35pm for me when we started and 1.40am by the time we ended. And I wondered why I was tired yesterday.

Thanks to The McHarg Center for organising this.
