

Rishi Sunak: masking error

I don't wish to be critical but....I saw this tweet

Getting people to wear masks is going to be a problem.

And with glasses they are a pain, I can tell you, because the glasses steam up.

But wearing the wrong mask really does not help. Medics tell me that Sunak's mask will let unfiltered air straight in. He might as well not be wearing it for all the good it does.

If ministers can't get masks right what hope is there?
