

# Why we need to reform accountancy - a video explanation

Published: January 16, 2026, 2:46 am

---

It is almost universally agreed that accountancy is in a mess.

Accounts don't meet users' needs.

Tax authorities have to create extra reports for their purposes.

The environment is being ignored by accounts.

And much of the data available on public record is useless to those who have questions to ask.

In this video I ask about what needs to be done to reform my first profession.
