

# Tax After Coronavirus: submission to the Treasury Commi...

Published: January 13, 2026, 1:13 am

---

The Treasury Committee of the House of Commons [issued a call for evidence on Tax After Coronavirus \(TACs\)](#) shortly before the summer recess, with submission requested by 28 August 2020. I have on behalf of Tax Research LLP, and the Tax After Coronavirus (TACs) project that it runs, submitted evidence in response to that call.

That submission is [here](#). Since the whole submission is 13,000 words it is not possible to summarise it all in a post. What I will, however, be doing is posting parts of this submission, and discussion of it, on a new Tax After Coronavirus (TACs) website that has been set up for this purpose at the request of the project funders, the Joffe Charitable Trust. The first post, [noting some of the recommendations made is here](#). Please take a look.
