

# What part of the national debt do you want to repay?

Published: January 14, 2026, 9:04 am

---

The national economic obsession is with repaying the national debt. But, very few people know what it is in the national debt (including, I now realise, the Office for National Statistics) and even fewer realise why it's all pretty useful stuff. In fact, I can't work out a reason why we'd want to repay any of it when the cost of having it is falling, steadily. This is what I explore here:
