

## Do we need a one off wealth tax now?

Published: January 13, 2026, 3:45 am

---

A body that has called itself The Wealth Tax Commission has reported today and has said that if all people in the UK with net asset worth of more than £500,000 had to pay a wealth tax of 1% of their worth over that sum then £260bn could be raised in a one-off tax charge. I'm not very keen on tax increases right now. But this idea is useful nonetheless. In this video I explain why.
