A friend mailed me this morning and asked what is going on in the FT. He'd noticed this in FT Alphaville [FT Alphaville](#):

*Elsewhere on Friday:*

— Richard Murphy [on](#) Biden's tax plan.

— [Stephanie Kelton on the inflation risk](#) in the infrastructure package. (NYT,\$)

It wasn't an MMT takeover, whatever it looked like.

In my case it was because I did this yesterday:

I was interviewed for an hour on Biden's tax plans, offshore and more. It was fun. And Clubhouse works, if you can get to use it.
