---

I have for the last two years or so been doing a lot of work on what my Sheffield University colleague Professor Andrew Baker and I call qualitative tax spillovers.

The work [began with an academic paper](#), from which several others have now followed

More recently it has [led to work on the broader issue of tax transparency](#) with the IMF and World Bank backed Global Initiative for Financial Transparency.

Now we have made a podcast on the issue, explaining our work and the reasoning behind it, produced by Faculti.
