My new draft [Financial Reporting Standard on Accounting for Environmental Change](#) got into [AccountingWEB yesterday](#):

New reporting standard seeks to drive environmental change

by [Richard Murphy](#)

The largest companies may still behave as if climate change and accounting exist in different worlds, but a new draft financial reporting standard looks to ensure these companies meet their net-zero carbon objectives.

31st Mar 2022

I fear this one is going to be a long, slow burn, which is not what the planet can afford.
