

Funding the Future

220,000

Published: January 13, 2026, 10:44 am

This happened last night:

It has taken longer than usual this year for this additional 10,000 followers to be added. 210,000 was reached on 27 October. Elon Musk contributed, and for some time in November numbers following fell regularly, albeit in relatively small numbers (maybe 2,000 overall). I also had long Covid.

Now the question is, do I pay for a blue tick? I am genuinely unsure what to do about that.
