

Housewives and Downing Street

A couple of weeks ago I posted a few pages from the 1935 book 'Housewives And Downing Street' which provided one possible explanation of the source of the so-called household analogy that plagues debate on the national economy.

Now Ian Tresman, a regular commentator on this site has uploaded a whole copy of the book to the web.archive.org site. This is free to access, so you can read a copy yourself.

Enjoy! And thanks Ian.
