

## And yet more glossary items

Published: January 13, 2026, 3:59 am

---

I thought I had finished for the day yesterday when I posted a list of more than thirty new glossary items that I added yesterday, bringing the total now published to more than 250. However, I went on to add a few more:

Consolidated accounts

Constitution

Currency

Consumption tax

Coins

Brass plate company

Shell corporation

Source basis taxation

Residence basis taxation

Remittance basis taxation

Controlled foreign company

Territorial basis taxation

Territorial ring fencing

Freeport

Enterprise zone

Gini coefficient

Palma ratio

Gearing

Gearing ratio

This brings the total number of new glasses entries added yesterday to more than 50 and the total glossary entries to about 250. More than 200 further entries are planned, about 100 of which are drafted to some degree.
