

Spring is in the air

Published: January 12, 2026, 11:24 pm

On my walk this morning, at Kingfisher Bridge, just south of Ely:

Spring is coming.

Good birdwatching too this weekend: cattle egret, black-tailed godwit, garganey and the usuals for around here, like marsh harrier and all the more common UK ducks. And plenty warm enough to abandon the need for a coat. It felt good to be out there.
