Due to the efforts of Andy Moyle, my tech guy, my new podcast called 'The Account' is heading for podcast streaming sites. These have been added so far (although Spotify takes a while to go live):

The screenshot shows a list of 13 podcast platforms with their status indicated by a blue or green checkmark. The platforms and their status are:

- Apple Podcasts: Blue checkmark
- Google Podcasts: Blue checkmark
- Podbean App: Green checkmark
- Spotify: Green checkmark
- Amazon Music/Audible: Green checkmark
- Tuneln + Alexa: Blue checkmark
- iHeartRadio: Green checkmark
- PlayerFM: Green checkmark
- Listen Notes: Blue checkmark
- Samsung: Green checkmark
- Podchaser: Green checkmark
- Bloomplay: Blue checkmark

At the bottom right of the page, there is a link: "More Podcast Apps >"

Apple and Google have been applied for but take a while to come through.

Let me know if there are others that would be useful.

And a quick poll. Andy thinks I should use some music as an introduction. I am not sure.  
What do you think?
