

Funding the Future

2 million, and rising

Published: January 16, 2026, 1:19 pm

I noted this not long ago:

09:48 Fri 30 Jun

Richard Murphy  @RichardJMurphy

There has been much discussion about the likely failure of Thames Water in the last day or so. I've been looking at the accounts of England's water companies for the last twenty years. My conclusion is that they are all environmentally insolvent. So, a thread.....

Yesterday's thread on water has now had 2 million views. Several hundred thousand of those are today, so the figure is still growing. I think that makes it my most successful thread ever.

My total Twitter traffic was well over 4 million views yesterday.

I am now working on another water related thread.
