Sometime late yesterday evening this blog clicked up its 3,162,651st read of the year.

That makes this year the most successful in the blog's history in terms of numbers of reads.

The oddity is that this happened on 23 August, with more than a third of the year to go and with average current monthly reads easily exceeding 400,000 a month. It is possible that the total reads of this blog might exceed 5 million this year.

My thanks to all who come here and read or comment. The site is what it is because of you. It's been going a long time now (more than seventeen years). It's continued popularity is gratifying, I admit.
