

GB News

Published: January 13, 2026, 3:26 am

GB News continues to be a disgrace.

I have been quite regularly invited to appear on this channel since it began. On every single occasion that they have asked, I have refused.

On every such occasion I have told the person calling, emailing or texting me that my reason for refusing was that I would not appear on a television channel that appears happy for some of its presenters to put forward neofascist views.

I have never regretted my decisions, least of all now.

It is time that this channel was taken off air.

It is time that Tory MPs who are presenters on it were held to account for what they are doing.
