There are people who are willing to say the right thing about Gaza.

This is Alexandria Ocasio-Cortez, speaking in the US House of Representatives:

She is right. The time for action is now. The world will not forgive those who wait. Even less will it forgive those who wait whilst supplying the arms that are being used to drive millions into famine.

One day I hope that those who are waiting whilst supplying arms will be brought to account for their actions. Genocide is unforgivable.
