

Rachel's austerity blues

I created this song in a couple of minutes yesterday [using Suno AI](#).

These are the lyrics:

[Verse]

Rachel Reeves in her high tower
Handing out cuts by the hour
Telling us it's what we need
When the wounds won't even bleed

[Verse 2]

People out there in the street
Empty pockets tight on meat
Promises they can't believe
Just another day they grieve

[Chorus]

Why you holding back what's ours
Why you building all these bars
Can't you see we're in the dark
Rachel's song no spark no spark

[Verse 3]

Councils shutting doors again
No more places to repent
Simple folks pushed to the edge
On the line there is no wedge

[Bridge]

Lost our faith in speeches now
Can't be quiet can't be proud
All your talk just feels so sour
All your coins they lose their power

[Verse 4] Page 1/2

Busted schools and battered homes
In the cold we're left to roam

All I asked it to do was write a song about Rachel Reeves delivering austerity in the UK in a light rock style. It did all the rest. It seems to be copyright-free, and you can get a few songs a month for free as well. I was looking for music creation - this is where I ended up.
