

## Funding the Future

### And now, more than 850,000

I [mentioned yesterday](#) that my [video on Trump's prospects in 2025](#) had been watched by more than 330,000 people on YouTube, with that figure still rising.

Last night, my son called me to ask if I had looked at our TikTok statistics, which I rarely do. Yesterday, it went rather well there:

That is more than 850,000 views now.

I doubt that will happen again for a while.
