

## World order is failing fast

Published: January 13, 2026, 6:45 pm

---

This is just out as a headline in [The Guardian](#):

### **Trump aide tells Zelenskyy to 'tone it down' as US envoy cancels Kyiv press conference**

White House national security adviser Mike Waltz said Ukraine should 'tone it down, take a hard look and sign that deal' on minerals with the US

Blatant thuggery is so appealing, isn't it, especially when dressed up as diplomacy?

The world order is failing fast right now.
