

## Might you support my petition on Trump's planned state ...

---

I have posted this draft petition on the UK government petitions website this morning:

### **Check your petition**

#### **Withdraw the invitation for a state visit to the UK by President Trump**

Diplomatic developments since the time that this invitation was issued to President Trump by the King suggest that this visit might now prejudice the wellbeing and security of Ukraine and its people, suggesting that this invitation is now inappropriate and that it should be withdrawn.

##### **▼ More details**

In light of the refusal of President Trump of the USA to include either Ukraine or European countries in his peace talks with Russia to resolve the war that has been pursued by Russia on Ukrainian territory since 2022 we are of the opinion that it would be inappropriate for the UK government to invite President Trump to partake in a state visit to the UK.

You will not be able to see the petition on that site as yet because it needs at least five supporters before it will be considered for publication. At the time in the morning that I am publishing this, I have not secured that number as yet. You can however support the draft petition [by following this link](#). You can then sign it.

Only twenty people can sign at this stage - but please do have a go, just in case.

The petition is deliberately soberly worded. I want to give it the best chance of being accepted.

Update at 7.10am:

Thanks to those who have supported this call. Let's see what happens now.

In the meantime, further signatures aren't required, so please wait for an update.
