

# Leave pensioner's money alone!

Published: January 13, 2026, 5:57 am

---

As the [FT notes this morning](#):

Whenever there are pension surpluses, which imply that corporate pension funds are adequately funded, the companies sponsoring such funds demand the right to have their money back.

This always ends in tears.

When will we learn that pensioners have a right to their money, and it no longer belongs to their employers?
