

Apologies

Published: January 16, 2026, 5:23 am

I have been told I was ratty here today.

I have been ratty today.

We had real IT difficulties yesterday, now resolved, but that was stressful.

Then, today, other issues, not related in any way to this blog, caused a lot of stress.

If that showed, I apologise. I am human. I can get ratty. I can only say sorry.

I will try harder tomorrow.
