

Starmer did NOT recognise Palestine

Published: January 12, 2026, 8:49 pm

We have issued this [morning's blog post on Starmer's decisions on Palestine](#) as a video this evening, with a poll attached.

As we said in the description of this video:

Keir Starmer has not recognised Palestine. Despite media spin, he's placed conditions, granted Israel a veto, and ignored the suffering of Gazans. In this video, I explain how his policy is a betrayal – of truth, of justice, and of peace. This is not foreign policy. It's appeasement.

Watch, share, and if you're moved, please write to your MP using the transcript [and link in the original video](#).

The transcript is, of course, in the original blog post.
