

Rolling out the red carpet

Published: January 13, 2026, 1:49 pm

The [National](#) has a series of articles this week, welcoming inward migration to Scotland.

I am one of the first to comment in the series, and as the National notes this morning:

Professor Richard Murphy today looks at immigration, arguing that we shouldn't just be welcoming migration, [we should be rolling out the red carpet](#).

There will be a version of this soon, here, maybe tomorrow.
