Nigel Farage says there's no climate crisis. Reform UK wants to scrap net zero, block green investment, and drive up your energy bills. The truth is simple: renewables mean lower costs, more jobs, and a liveable planet. Reform means climate chaos.

[https://www.youtube.com/watch?v=I0gw5whEW-k&si=a7iYylUq8z\\_PDWgz](https://www.youtube.com/watch?v=I0gw5whEW-k&si=a7iYylUq8z_PDWgz)

This is the transcript:

---

Why would anyone vote for Reform? After all, Nigel Farage denies that there's a climate crisis, but all the evidence - and it is now overwhelming, and science proves it - suggests that we are living in and are going to suffer living through a climate crisis, the consequences of which are enormous.

Despite that, Nigel Farage opposes green investment. He's completely rejecting investment, in particular, in the cheapest forms of energy that we have, which are solar and wind, which, like Donald Trump, he says, are a con trick.

He even wants to scrap net-zero because he says we can't afford it. But the truth is that without net zero, there may be no life for us human beings here on earth. As a consequence, he wants to abandon the hopes of all young people.

The reality is that climate change is real and urgent.

Energy bills will fall faster with more green power.

And jobs in this country will not come from oil, but they will most definitely come from renewables and fitting them into every property in the UK.

Reform is blocking the future that we need, the jobs that we need, the lower energy prices that we need, and the sustainability that we need.

It wants you to have higher energy bills than are necessary.

It wants to destroy the green jobs that might offer you or your children the opportunities that they desire.

It wants to prevent investment in green industries in the UK.

And as a result, it wants Britain to be left behind in the global race to tackle climate change.

And all the time, the planet will be pushed closer to crisis.

Nigel Farage is offering a dead end when it comes to climate change. Reform means higher costs and climate chaos.

Why would you vote to destroy your children's future? That is what you would be doing if you vote for Reform, and Nigel Farage.

Why would you want to back climate denial when it is so obviously real?

Please think hard about this. Our future matters. Your children's future matters. Please don't vote for Nigel Farage.

He doesn't care about you, or your children, or the future of this planet. He only cares about himself, and that's not a basis for voting for him
